

## ADMINISTRATIVE - INTERNAL USE ONLY

PRINTING AND PHOTOGRAPHY DIVISION  
WEEKLY REPORT FOR PERIOD ENDING  
22 September - 28 September 1983I. Items or Events of Major Interest that have Occurred During the  
Preceding Week

A. Support to Office of Communications: OL/P&PD/Prepress Branch is in the midst of processing a special request from the Office of Communications to typeset 10,000 pages. After typesetting, P&PD will have approximately 60 days to print and assemble this material which will involve production from over 650 printing plates.

B. FBIS/JPRS Automation: Representatives from P&PD met with FBIS Systems Development Staff representatives and contractor representatives from [ ] to discuss JPRS automation efforts. FBIS is currently planning to install a testbed word processing/text processing system by April 1984. The testbed will consist of a device at a contractor's site connected by telephone modem to another device at JPRS. Once the data is edited at JPRS, it will be output to either a laser printer, or a magnetic tape for processing on a phototypesetter.

C. Virginia Air Pollution Control Board (VAPCB): A representative of the P&PD/Plans, Programs, and Systems Staff has been contacted by Mr. William Millward of the VAPCB. Mr. Millward who is making a Headquarters survey is interested in the quantity and types of solvents and inks utilized by P&PD, Main Printing Plant. A response to this inquiry will be coordinated and released through the DDA/Safety Staff.

D. Audio-Visual Technology Symposium: Four representatives of P&PD attended the Audio-Visual Technology Symposium held at the Washington Convention Center on September 20 - 22. The seminars attended by P&PD personnel included those relating to television production equipment, visual composition and design, and the management of audio-visual production systems.

II. Significant Events Anticipated During the Coming Week

None
